Insurance Plans We Accept, as of October 19, 2026

Participating and non-participating insurance carriers

At Metrolina Nephrology Associates, we want you to understand your coverage before your visit. This list shows the insurance companies and plans we currently work with. If you have questions about your coverage, our team is happy to help.

Before your visit

Insurance participation can change. Please call your insurance company (the number is on the back of your card) and our office to confirm your plan is accepted before your appointment.

Being "participating" means we are in-network with that plan. It does not guarantee coverage for every service. Your benefits, copays, deductibles, and referral or authorization requirements depend on your specific plan.
